CSE641: Computer Vision : Modern Methods and Applications
Group: RCNN
Project no.:13
Weekly Report 4

Name	Enrollment number
Daksh Shah	AU2240207
Shalvi Modi	AU2240215
Sloka Thakkar	AU2240103

Task completed:

- Verify YOLOv11's detection accuracy by running the model on test images.
- Adjust hyperparameters and train YOLOv11 to optimize performance.
- Generating the result using the model merging approach
- Working on incorporation of new data

Goals for Next week:
- Compare ML model and CV model for classification.
- Observe and note the timings of the model implemented.
- Fine Tuning the hyperparameters of the model
- Working on generating the accurate results
